### Honoring Manijeh Razeghi

Submitted by Prof. Hooman Mohseni

I had the unique opportunity to have Manijeh as my PhD advisor almost two decades ago. I found her to be the most inspiring and yet demanding person, with an unstoppable dedication to science and education. Over the years, I have met with a lot of inspiring people - both at industry and academia - but no one has come close to Manijeh.

I am extremely grateful to Prof. Razeghi as my Ph.D advisor. She led me to the exciting realm of quantum cascade lasers. Undoubtedly, she is the most energetic, optimistic, and passionate person I have known. Together we had countless discussion, debate, and celebration over results that were never believed possible. Her vision and experience are the north star that always points me to the right direction.
