

DOW SUSTAINABILITY INNOVATOR AWARD

Presented to

Can Bayram

Established in 2008, The Dow Sustainability Innovation (Student Challenge) recognizes students from key strategic universities globally for their innovation and research of sustainable solutions to the world's most pressing social, economic, and environmental problems.

Aligned to the thinking and priorities in Dow's 2015 Sustainability Goals, winners represent the "best of the best" against high-level criteria established by Dow to include: innovative excellence in research, solving significant problems, interdisciplinary nature of work and work proposals for ongoing research.

2009 Recipient

**Can Bayram
Northwestern University**
